REMARKS

Favorable consideration of the patentability of the claims in this application is solicited.

Claims 42 to 47 are supported by Figures 3 and 10 (see specifically "label information 141") as well as by the specification (see specifically page 14, line 9 to page 15, line 2.

All of the claims of this division application find ample support in the parent '063 application as well as in the Japanese priority application from which it is derived. It is urged that the examiner enter these new claims and find them to be allowable.

Respectfully submitted,
